| Ventilators                                                  | 790       |       |                                 |                                               |                                       |

\*Every hospital in Oregon is asked to submit data twice daily to Oregon’s Hospital Capacity Web System (HOSCAP). Hospital staff are asked to enter bed capacity information, by type, as well as the number of patients with suspected or confirmed COVID-19 illness who are currently hospitalized at the time of data entry. These data may conflict with hospitalization status in Orpheus due to case reporting and investigation lags and temporary discrepancies in case classification.

# Oregon COVID-19 Daily Update

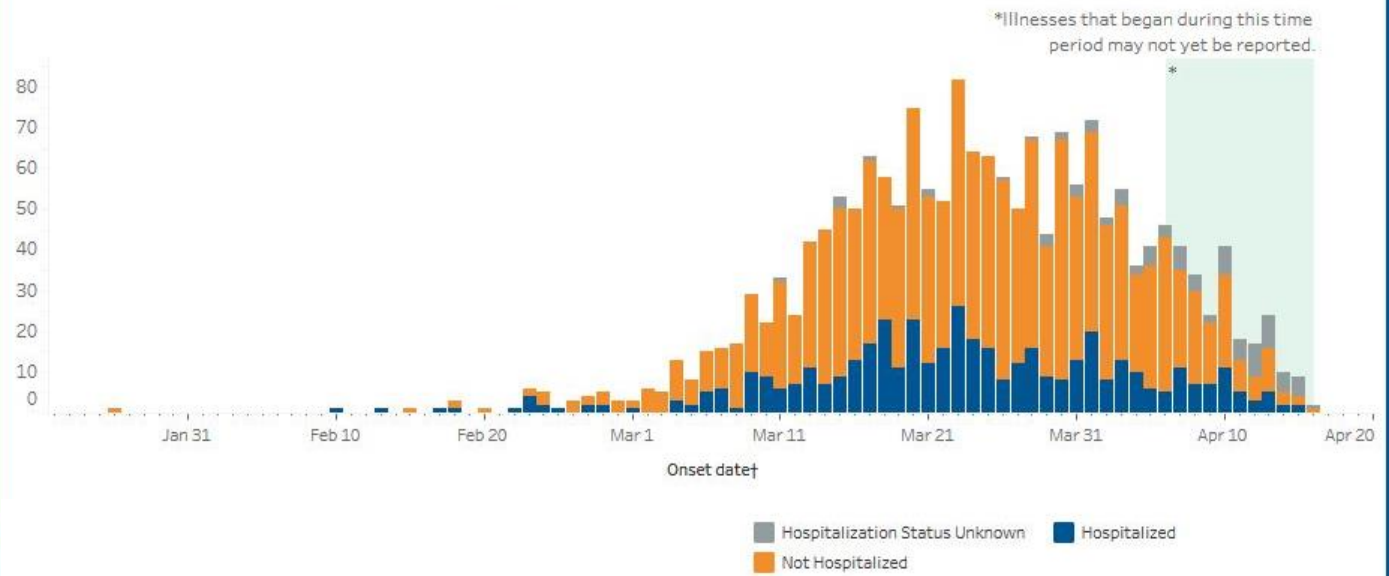

## Summary as of Saturday 04/18/2020

### Oregon's Epi Curve: Positive COVID-19 cases

This chart shows the number of Oregonians who have tested positive for COVID-19 and whether they were ever hospitalized for their illness.

| Total Positive Cases | Hospitalized | Not Hospitalized | Hospitalization Status Unknown |
|----------------------|--------------|------------------|--------------------------------|
| 1,844                | 449          | 1,307            | 88                             |

#### Notes

†Cases are counted by onset date (the date the person started having symptoms).

COVID-19 data are provisional and subject to change.

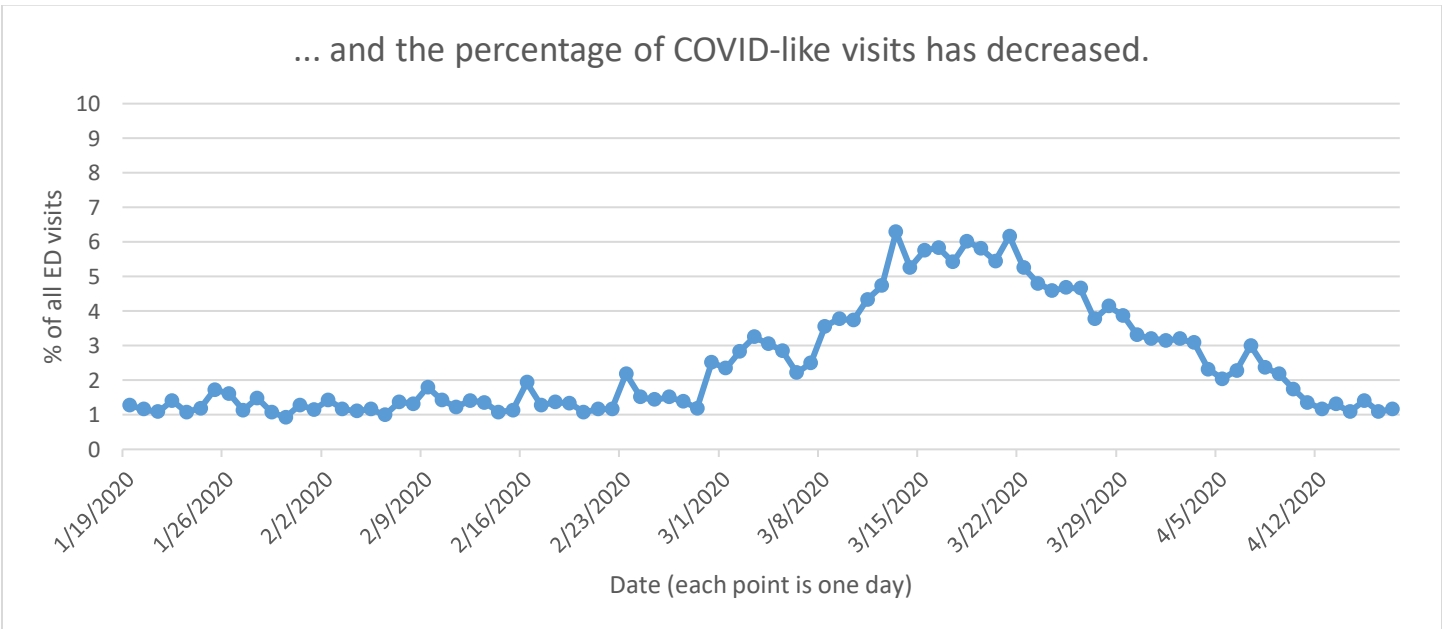

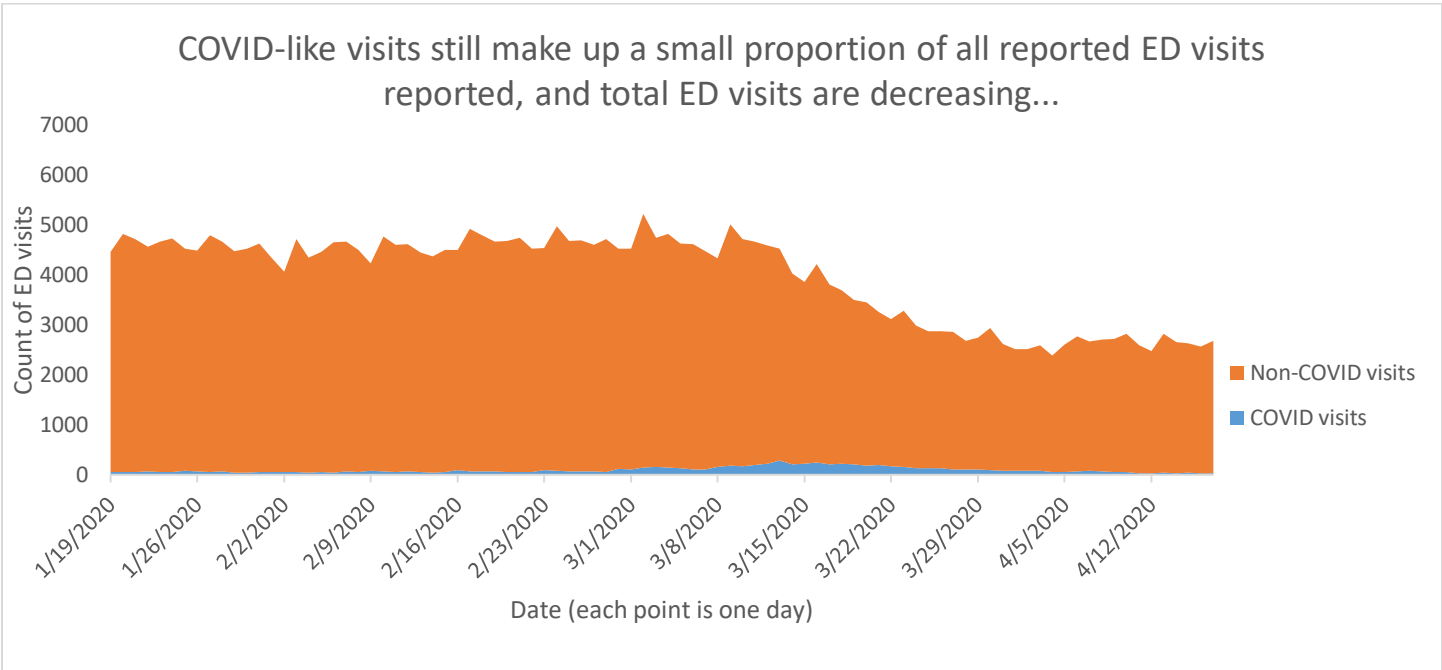

# Oregon COVID-19 Daily Update

## Summary as of Saturday 04/18/2020

### Emergency Department Visits in Oregon as reported to Oregon ESSENCE\*

\*Oregon ESSENCE receives daily reports of emergency department visits from all 60 non-Federal hospitals in Oregon.
